DETAILED ACTION

1. Claims 1-18 are presented for examination.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
3. Claims 1-3, 6-9 and 13-18 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Secure4U (copyright date March 19, 1997).
4. As per claims 1-3, 8, 9 and 13-17, they are rejected as being clearly anticipated by Secure4U based on Applicant's assertion that claims 1-3, 8, 9 and 13-17 are unquestionably being infringed upon by Secure4U of paper no. 5.
5. As per claim 18, claim 18 is a conglomeration of claims 3, 9, 16 and 17, and is therefore rejected for same reasons as stated above.
6. As per claims 6 and 7, it is an inherent feature that Secure4U stops querying when reset because when the system is reset all processing is stopped.

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 4 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Secure4U (copyright date March 19, 1997) in view of Shane (5,793,972).

9. Shane shows the use of determining attempts for the duration of one of a predetermined time period and a predetermined number of access attempts (e.g. col. 10). It would have been obvious to one of ordinary skill in the art at the time the invention was made to combine Shane with Secure4U because it would provide for enhanced security mechanisms.

10. Claims 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Secure4U (copyright date March 19, 1997) in view of Lohstroh et al. (5,768,373) (hereinafter Lohstroh).

11. Lohstroh shows the use of an operator to override security measures (e.g. col. 1). It would have been obvious to one of ordinary skill at the time the invention was made to combine the Lohstroh with Secure4U because it would provide for access to secured data when an access key to the data has been lost or forgotten.

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Application Number: 08/937,883
Art Unit: 2783

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
